

# Dave Meyer

Game Artist - Content Creator - Designer

## Profile

Greetings!

I am Dave Meyer, better known in the gaming industry as "JstDave".

From an early age, I have been interested in gaming and game development. Since graduating from secondary school, I have been striving to become a game developer myself. In addition, I hold a bachelor's degree in video game development. I have worked extensively on a variety of projects, from creating characters and levels to designing and coding gameplay mechanics. I am confident that I have the skills and knowledge to be a successful game developer.

My bachelor's degree will be awarded this year at the University of West London. Consequently, I am seeking a position where I can use my experience in game development to create the most impressive game imaginable with a great team! :)

In addition to studying, I also created content for Twitch and YouTube related to gaming and game development. I'm passionate about creating entertaining and informative content. Through my hobby of streaming, I have accumulated around 2000 followers on Twitch with a great community! You can find more information about this on my website and social media pages.

I appreciate you taking the time to learn more about me. I hope you will find me to be an excellent addition to your team.

Best regards!
